

To whom it may concern:

We have utilized OccuVax for flu shots for our employees for the past two flu seasons and would highly recommend their services. I have been very pleased with the ease and convenience OccuVax provides. We used the online appointment registration and it worked very smoothly for our employees. The nurses that were assigned to our clinics were very prompt, professional and easy to work with. The supplies arrived on time and the return process is very efficient and convenient.

We appreciate our partnership with OccuVax and would recommend this company to anyone needing on site vaccination services.

Regards,

Kristin Arnold
