

The
LEXINGTON
Assisted Living Center

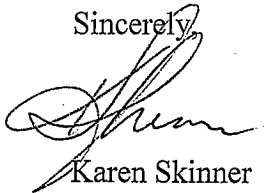

January 17, 2009

Dear Sam:

I want to express to you and your company how much our facility appreciates having the opportunity to have you come in and do our flu vaccination clinic each year. It saves us a great deal of time and it is very beneficial to our current residents and saves them the time to go to the physician or one of the pharmacy clinics in our area.

Thank you again for your support and help.

Sincerely,

Karen Skinner
Resident Services Director
