Subject: OccuVax Flu Shot Service to OPPD

Sam,

This memo is to sincerely thank you and the entire OccuVax Staff for another outstanding job that was completed during the onsite flu shot clinics you recently provided to OPPD.

It has now been 3 consecutive years that OccuVax has provided this service to OPPD. Each year you have continued to exceed our expectations!

For instance your pricing structure has notoriously beaten the competition. On an annual basis I am contacted by several vendors offering flu shots. OccuVax always offers the best price and supportive services. Registration – your online registration system is second to none. Our employees are able to easily navigate the system and register for their shot from work or home. I rarely receive a phone call asking for assistance or reporting a problem. Flu shot vaccine and supplies – OccuVax provides timely delivery of all supplies and vaccine to each work site prior to the clinic, insuring that no delays or glitches happen on the day of the clinic. Your staff – OccuVax provides first class nurses who always report to the job site on time and make sure their customers are given their shot quickly and professionally. The billing process – invoices are promptly sent following the clinics are each location. Supportive services – if additional flu shot dates and times are needed you and your staff immediately takes the time to accommodate those requests!

Overall OPPD rates OccuVax services as outstanding! If I can be of any service to you please feel free to have other companies contact me. Please also use this letter as a personal testimony/letter of recommendation for future clients.

Best Regards,
